

Namazu is a two piece model. Cut out the patterned sheets to make the model.

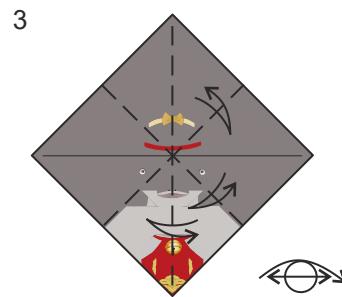

# Namazu Part one

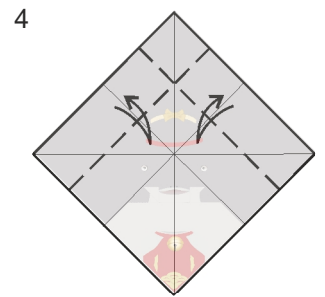

1 Fold the square in half diagonally.

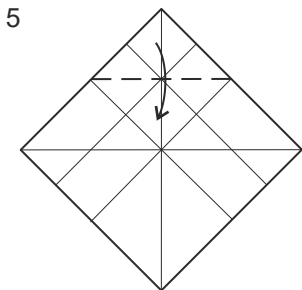

2 Fold the corner back. This is a "fold and unfold" step shown with a double arrow.

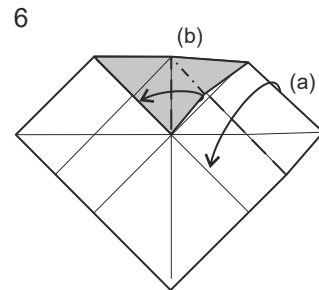

3 Fold and unfold the square in half along all axes. Then turn the paper over.

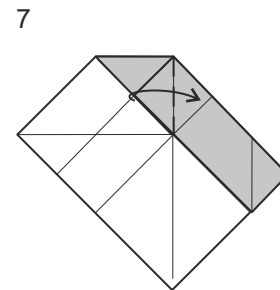

4 Fold the upper edges in to the middle crease. Then unfold. Note the alignment of the pattern behind.

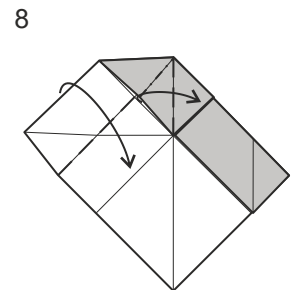

5 Fold the upper corner down to the middle of the square.

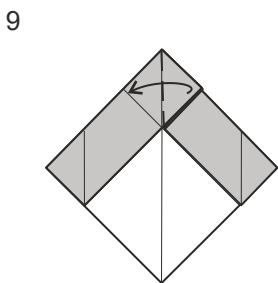

6 Fold one side over (a) at the same time fold out the paper in the upper folded triangle (b).

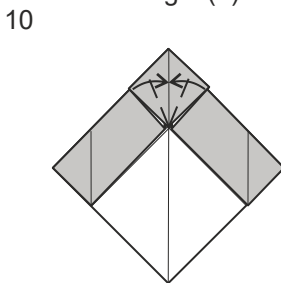

7 Fold the corner back over.

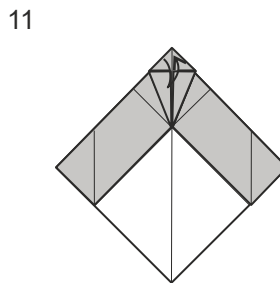

8 Fold the side over and fold out the adjacent paper. (Repeating step 6).

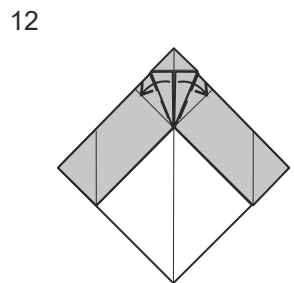

9 Fold the corner back again.

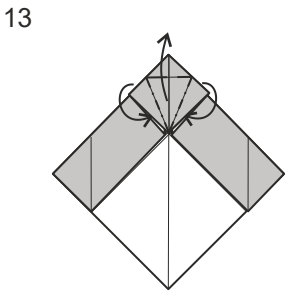

10 Fold the edges in diagonally to touch the middle crease.

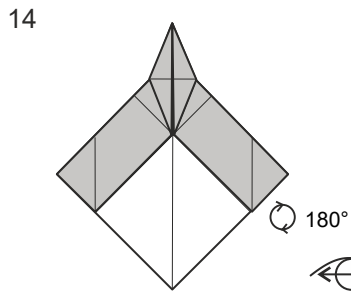

11 Fold the upper corner over the adjacent folded edges and unfold.

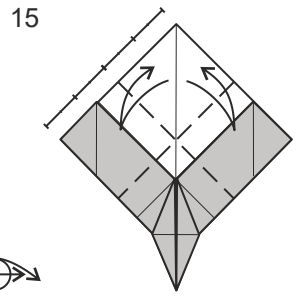

12 Unfold the edges folded in step 10.

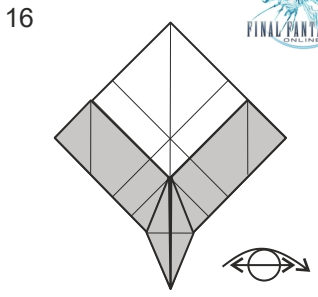

13 Fold the upper edge up causing the edges to fold in.

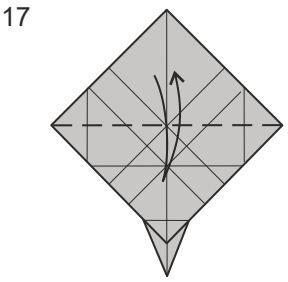

14 Rotate the model 180°.

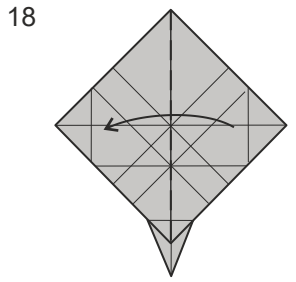

15 Fold and unfold the edges lengthwise along the middle of the upper square section.

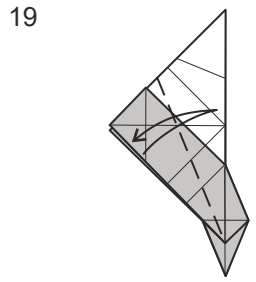

16 Turn the model over left to right.

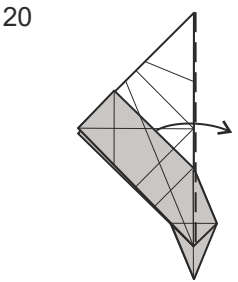

17 Fold and unfold the square in half diagonally.

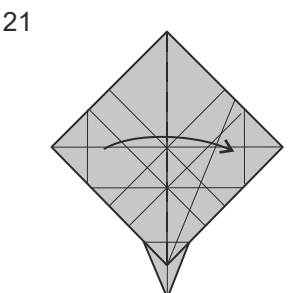

18 Fold in half lengthwise.

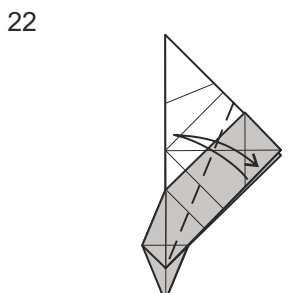

19 Fold in the edge (one layer) diagonally to touch the outer edge. Then unfold.

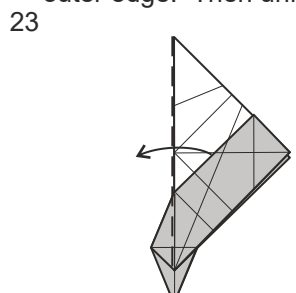

20 Fold the side back.

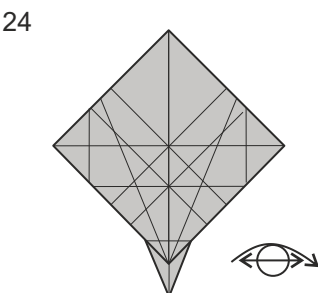

21 Fold the opposite side over.

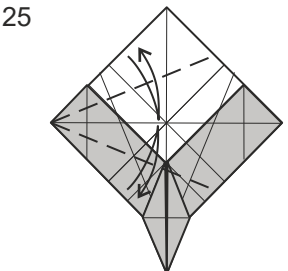

22 Fold in the edge (one layer) diagonally to touch the outer edge. Then unfold.

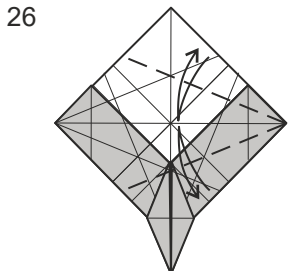

23 Fold the side back.

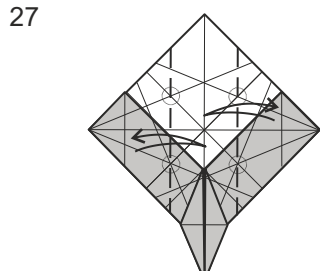

24 Turn the model over left to right.

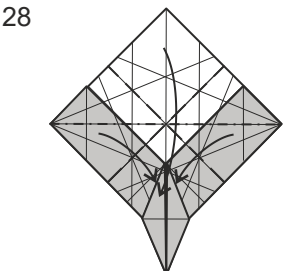

25 Fold the upper and lower edges to the middle and unfold.

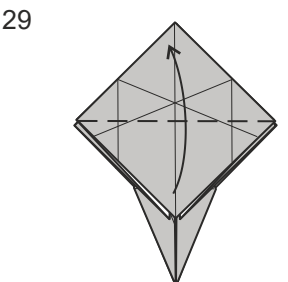

26 Fold the upper and lower edges to the middle and unfold.

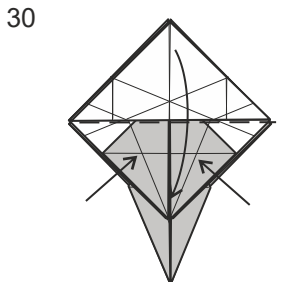

27 Fold the outer corners in. The creases should through the crease intersections.

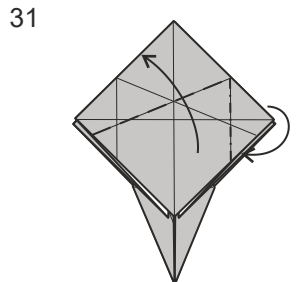

28 Fold the upper corner down and fold the corners in.

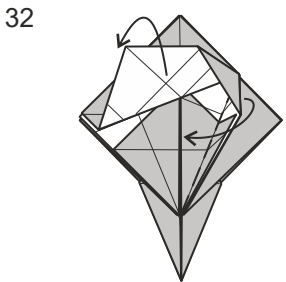

29 Fold the front corner up.

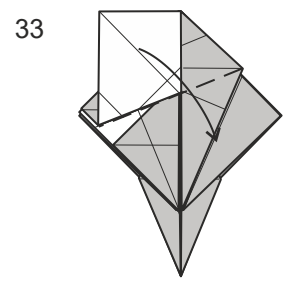

30 Check the inner folded corners indicated are folded as shown. then fold the corner back.

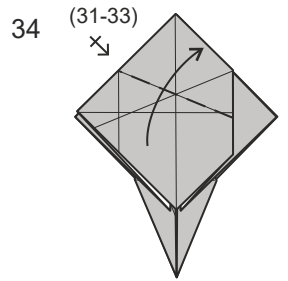

31 Fold up the upper layer. This will cause the paper behind to fold in.

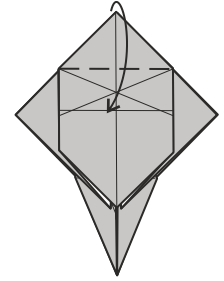

32 Fold in progress.

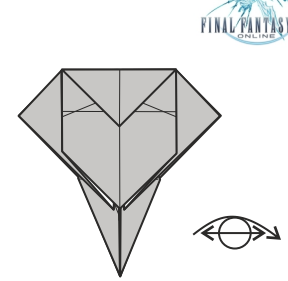

33 Fold the edge back again.

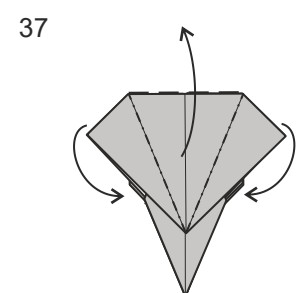

34 (31-33) Repeat steps 31 to 33.

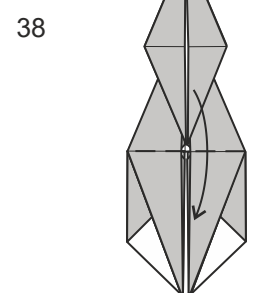

35 Fold the upper corner down.

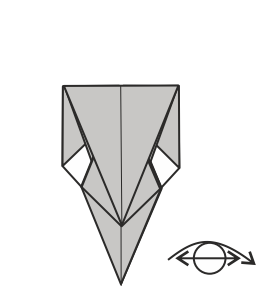

36 Turn the model over left to right.

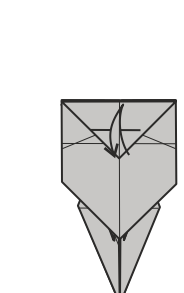

37 Fold the top layer up along the upper edge, causing the outer edges to fold in.

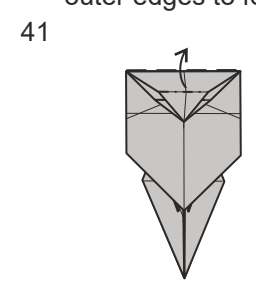

38 Fold the section back down.

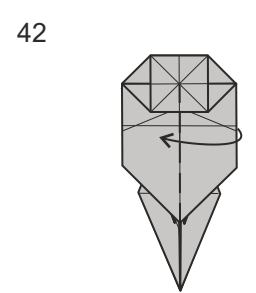

39 Turn the model over left to right.

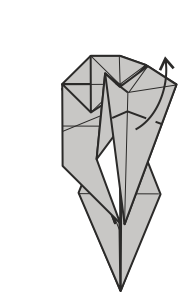

40 Fold the corner up to the edge and unfold.

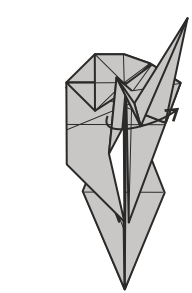

41 Separate the layers of the upper corner and open the point and squash it flat.

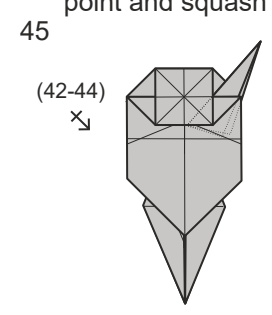

42 Fold one side over to expose the inner section.

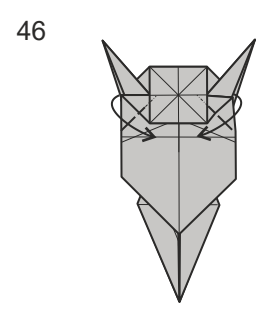

43 Fold the inner point up.

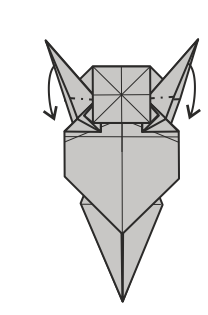

44 Fold the edge (folded in step 42) back again.

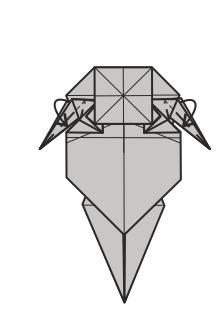

45 Repeat steps 42 to 44 on the other side.

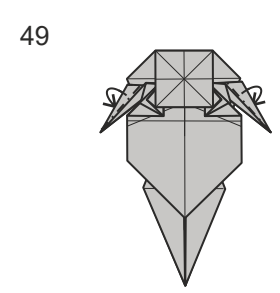

46 Reverses the corners inside the upper squashed point.

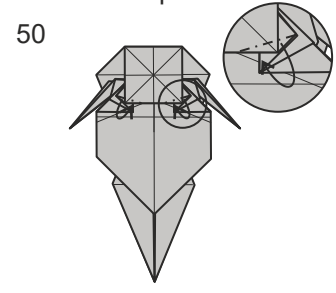

47 Reverse fold the points, turning them inside out.

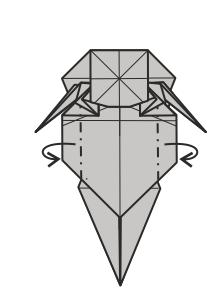

48 Fold the edges down to narrow the points.

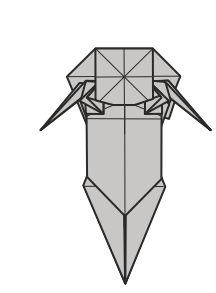

49 Fold the edges of the points behind to narrow them.

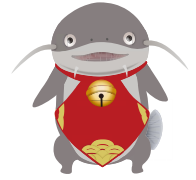

50 Fold the lower corners of the face behind to shape it.

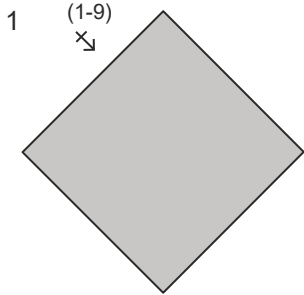

51 Fold the edges of the mid section behind. The upper section will reverse.

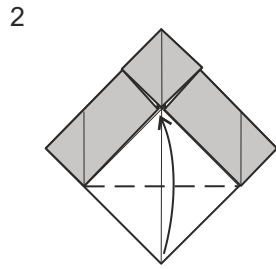

52 Part one complete.

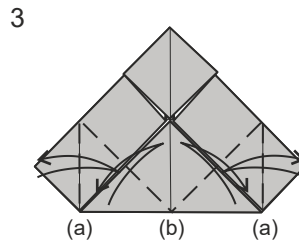

# Namazu Part Two

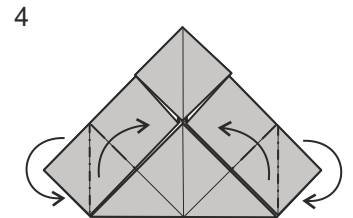

1 (1-9)  
x  
Complete steps 1 to 9 of Part One on the second square.

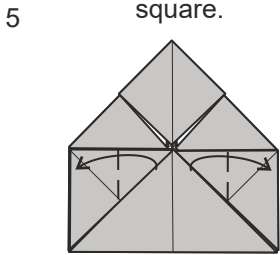

2 Fold the corner up to the middle.

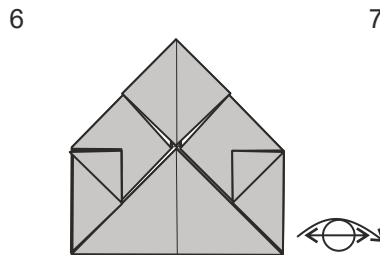

3 (a) Fold and unfold the outer corners. (b) Then make two diagonal folds and unfold.

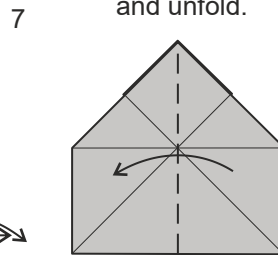

4 Fold the upper layers in. The outer corners will fold inside.

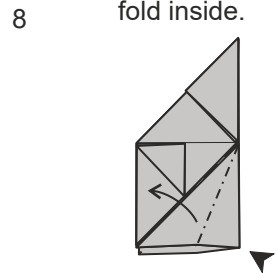

5 Fold the corners out to touch the outer edge.

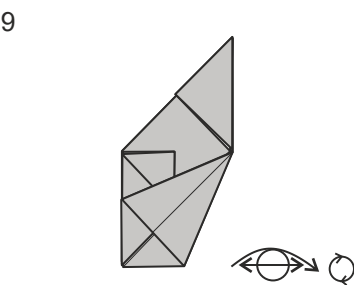

6 Turn the model over left to right.

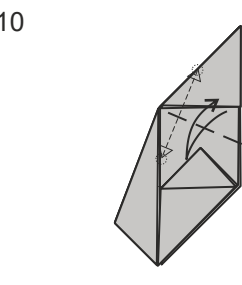

7 Fold the model in half.

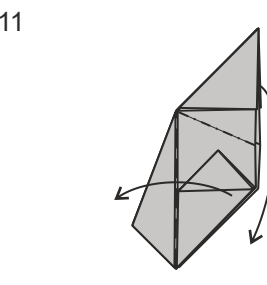

8 Fold the Lower corner up to stand perpendicular. Then squash it flat.

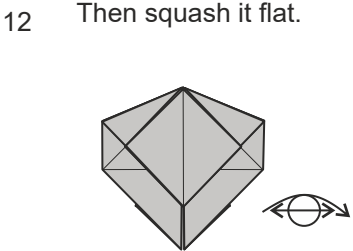

9 Turn the model over and rotate slightly.

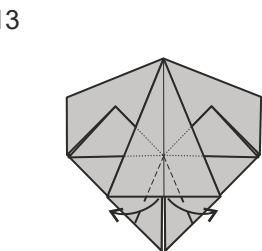

10 Fold the upper down to touch the edge indicated.

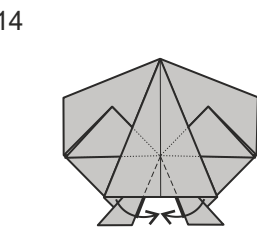

11 Fold the upper edge over, open the model and fold the upper section down.

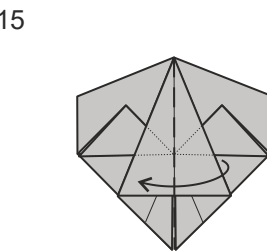

12 Turn the model over left to right.

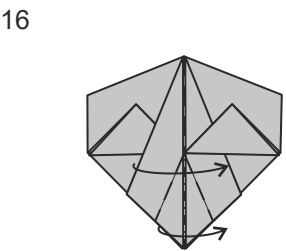

13 Fold the lower corners out beneath the upper section.

14 Fold the lower corners back again.

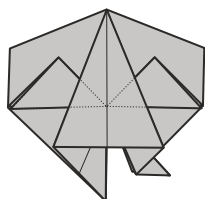

15 Fold over one side.

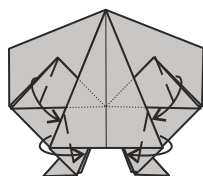

16 Fold the side back and reverse fold the lower section.

17

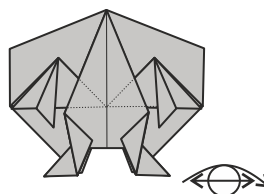

Repeat steps 15 to 16 on the other side.

18

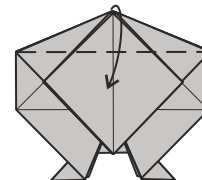

Fold the upper corners down and fold the lower corners in.

19

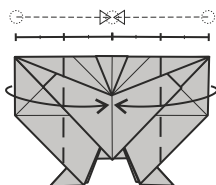

Turn the model over left to right.

20

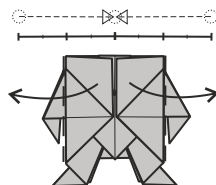

Fold the upper corner down.

21

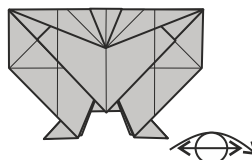

Fold the outer edges to the middle.

22

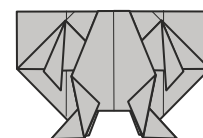

Crease the edges and fold the edges back out.

23

Turn the model over left to right.

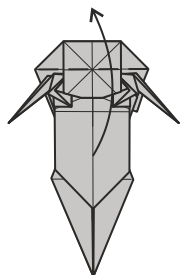

24

Body section complete.

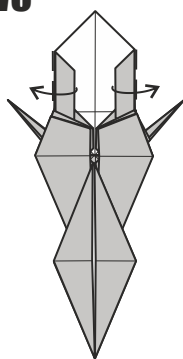

## Assembly Parts one and two

25

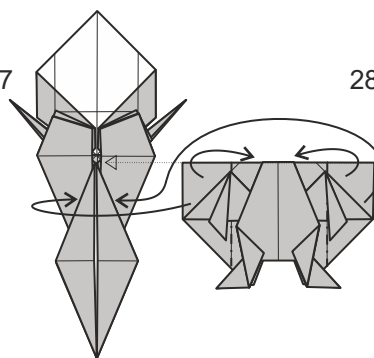

Open up part one by folding the upper layer up.

26

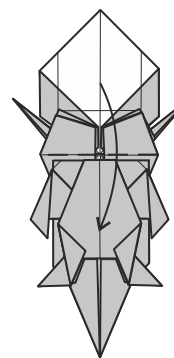

Fold the outer edges of the upper section out.

27

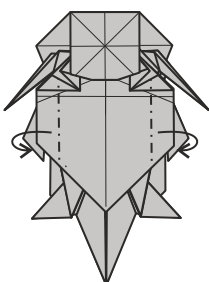

Put the body inside and refold the edges behind the lower diamond.

28

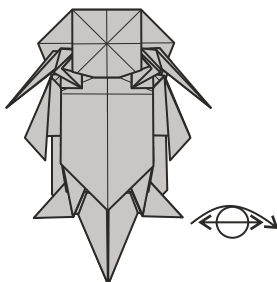

Fold the upper section down.

29

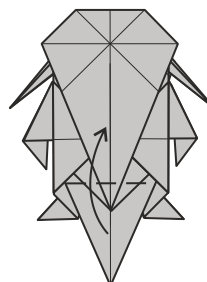

Fold the edges behind and tuck them behind the inner edge.

30

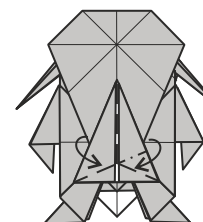

Turn the model over left to right.

31

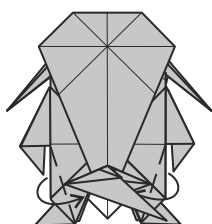

Fold lower corner up.

32

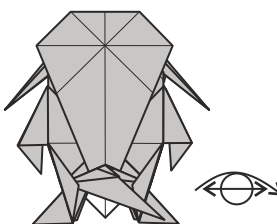

Pinch the edges together to fold the tail down.

33

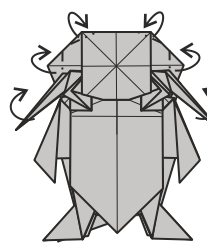

Fold the edges of the legs in.

34

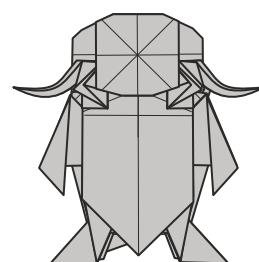

Turn the model over left to right.

35

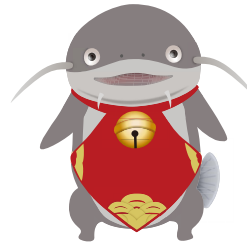

Fold the edges of the face in and curl the whiskers.

36

Namazu complete. Use the tail to support the model

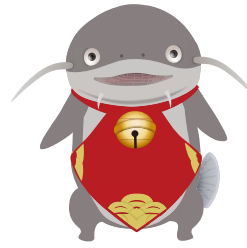

# Namazu Part one

Namazu is a two piece model. Cut out the patterned sheets to make the model.

# Namazu Part Two

Namazu is a two piece model. Cut out the patterned sheets to make the model.
